

# Gutter Grip® Warranties Provide Total Peace of Mind

When you choose the Gutter Grip® System for your gutter installation project, the Gutter Grip® warranties provide you with the peace of mind that you have selected the best product.

The Gutter Grip® System is designed to provide a simple effective method of installing eaves guttering with continuous overflow methods.

The Gutter Grip® gutter fixing System satisfies the performance requirements of The Plumbing Code of Australia (PCA) and The Building Code Australia (BCA).

Gutter Grip® has been independently tested to ensure it meets the highest quality standards. It's just one more way to protect your home or business and your reputation.

The Gutter Grip® material warranties apply to all Gutter Grip® systems - ZINCALUME® steel, COLORBOND® Ultra steel, COLORBOND® Stainless steel and Stainless steel.

There is a Gutter Grip® System suitable for all environments. To qualify for a 12 year warranty, the appropriate Gutter Grip® System must be selected and installed according to the Gutter Grip® Installation Instructions.
